Financio Accounting System

Along with RHB Reflex Premium Plus, this cloud-based accounting software is specially designed for SMEs in the Education sector.

Financio generates accounting entries and records transactions automatically for you when you issue invoices, payment & expenses.

Accounting Automation

Provides a holistic view of business performance that shows financial data or other metrics from multiple sources to help offer clarity, saves time and improves decision making.

Accounting Dashboard

Online/ Cloud-Based

Access your cloud-based accounting data from anywhere with any connected mobile, tablet or computer. For PC, Mac, Android or iOS.

Bank Integration

Bank feeds allow you to automatically import bank statements into your accounts and issue payments to your suppliers directly from Financio.

Talenox HR System

The partnership between RHB & Talenox offers their clients an online Human Resource and Payroll system through RHB banking platform via RHB Reflex under the Reflex Premium Plus package. It is designed for simplicity and efficiency to manage leaves, payroll and statutory payments.

Ease of payroll management

Runs payroll and statutory payments online and generates timely monthly pay records. Employees can view their pay slips online anytime.

Automatically calculates and disburses salaries, EPF, SOCSO, EIS and PCB (MTD).

Automates leave management (Optional)

Preset and customise different types of leaves. Employees can also apply for leaves on the go.

Any leave type that affects salary is synchronised with Payroll.

Employees profile management

Imports, stores and manages employees' information with a secure and comprehensive database.
